

'Leave Bakman alone'

(Updated Tuesday, March 1, 2005, 6:23 AM)

The city of Fresno is trying to confiscate the Bakman Water Co. through government-sanctioned theft called "eminent domain." Why should the city government need to have a monopoly on the water supply?

We moved into our new house in the Bakman tract in January 1949. The Bakman Water Co. has always provided good, clean water at a reasonable cost.

We do not have to buy bottled drinking water. The water is always clean and doesn't taste like bleach.

This company is a successful business, providing good services.

I ask residents, City Council members and Fresno County supervisors to oppose this proposition.

R.J. Hutchens - Fresno
